

# FTSE BURSA MALAYSIA ASIAN PALM OIL PLANTATION INDEX

The FTSE Bursa Malaysia Asian Palm Oil Plantation Index has been designed to provide easy access to investors who wish to participate in Asia's burgeoning palm oil industry. This Asian index aims to capture the performance of companies that earn a substantial proportion of their revenue from palm oil activities. Palm oil activities include production, ownership or operation of palm oil and palm oil plantations.

## Screening Highlights:

- Only companies that have a market capitalisation of greater than USD 100 million are eligible to be included in the index
- To be included in the index a company is required to have greater than 30% of total revenue from palm oil related activities
- Existing constituents will no longer be eligible if total revenue from palm oil related activities falls below 20%
- For a country to be eligible in the FTSE Bursa Malaysia Asian Palm Oil Plantation Index, its companies aggregated together must have an index weighting of greater than 2%
