
FTSE Latibex Brasil Index

Change to Index Capping Factor

The FTSE LATIBEX Advisory Committee has approved a change to the Capping Factor which is applied to limit a security's representation within an index.

After the close of business on Thursday the 18th September 2008, effective from start of trading on Friday the 19th September 2008, the Capping Factor for the FTSE Latibex Brasil Index will change from 20% to 10%.
